My background in art history shapes every brief — I'm thinking about composition, reference, and cultural weight before I think about what something does. I work across brand identity, motion, and social, doing my best work when involved across all three. Clients include Google, Amazon, and Spotify alongside independent galleries, labels, and magazines.

Work Experience

2025–Present

Motion Designer Entropico

Designed motion identities, brand campaigns, and social content for Google Ads, Google Next, and YouTube. Developed visual systems spanning digital and social platforms.

2021–Present

Brand + Motion Designer Freelance

Created motion identities, brand systems, and digital campaigns for tech, healthcare, and nonprofit clients. Designed visual assets for Spotify Wrapped, driving record-breaking user engagement across social media.

2023

Graphic Designer Careismatic Brands

Designed digital marketing assets for healthcare apparel brands, ensuring consistent branding across platforms. Created animated social content and campaign visuals, driving higher audience engagement and brand recognition.

2023

Jr Designer Giant Spoon

Developed brand guidelines for Z by HP to ensure consistency across all touchpoints. Designed event visuals for MassMutual's NAACP conference, enhancing audience engagement.
